

Giovanna Castellano is an Associate Professor at the Department of Computer Science, University of Bari Aldo Moro, Italy. She is the coordinator of the Computational Intelligence Lab at the Computer Science Department of the University of Bari. She is member of IEEE Computational Intelligence Society, the EUSFLAT society and the INDAM-GNCS society. Her research interests are in the area of Computational Intelligence and Computer Vision. On these topics she has published more than 200 papers in international journals and conference proceedings. She is co-author of the Springer book "Fuzzy Logic for Image Processing: a Gentle Introduction using Java" published in 2017, and co-editor of the Springer book "Web Personalization in Intelligent Environments" published in 2009. She is Associate Editor of Information Sciences, Evolving Systems, International Journal of Intelligent Systems, International Journal of Systems, Control and Communications and International Journal of Knowledge-Based and Intelligent Engineering Systems. She was Co-organizer of the 4th EUSFLAT European Summer School on Fuzzy Logic and Applications (SFLA2018). She is General chair of the 2020 IEEE Conference on Evolving and Adaptive Intelligent Systems (IEEE-EAIS2020).
