

Eng. Stefano Ferilli, PhD [born 1972, Graduated in Computer Science in 1996, Ph.D. in Computer Science 2001, Specialistic degree in Computer Science 2003] is an Associate Professor at the Department of Computer Science of the University of Bari since 2006 (first appointment 2002). 2006-2018 Director of the Inter-Departmental Center for Logic and Applications of the University of Bari. His research interests are centered on Logic and Algebraic Foundations of Machine Learning, Inductive Logic Programming, Theory Revision, Multi-Strategy Learning, Knowledge Representation, Expert Systems, Data Mining. Applications include Electronic Document Processing and Digital Libraries, Process Mining, Ambient Intelligence, Bioinformatics. He currently leads the Machine Learning group at the LACAM laboratory of the University of Bari. He participated in various National and European (ESPRIT and IST) projects concerning these topics, some with coordination responsibilities. (Co-)author of more than 300 papers published on National and International journals, books and conferences/workshops proceedings. Associate Editor of 2 international journals, and involved in the organization of national and international scientific events and journals. Since 2011 member of the Steering Committee, and since 2015 Treasurer, of the Italian Association for Artificial Intelligence.
